**BUGGIES FOR ZULEKHA
HOSPITAL PATIENTS**

Patients visiting Zulekha Hospital in Dubai are now being offered a chauffeur-driven buggy service from the car park. The service is available for patients at the hospital located in Sharjah as well. "We're always looking to go that extra step to take the best possible care of our patients," said Zanubia Shams, CEO of Zulekha Hospital. The new buggy service was being well-received due to the summer heat, he said, but added that it will run throughout the year.
