

Zanubia Shams

Chief Executive Officer
Zulekha Healthcare Group

A prolific entrepreneur and sincere healthcare ambassador, Ms Zanubia is a Business Grad from The United States of America specializing in Business Administration. She took over operational responsibilities of the Zulekha Healthcare Group from her mother Dr Zulekha Daud eight years ago and has passionately helmed the growth of this fast growing health care brand.

Zanubia believes in team-work and confers with a panel of experts from ancillary fields such as global healthcare, finance, business analysts, O&M and marketing to support her 15-member think tank who advise her on decisions.

Zanubia brings with her much of the charisma inherited from her mother Dr. Zulekha Daud and she exudes an air of confidence that is clearly reflected in the way the hospital is run. She also heads expansion projects with her husband Mr Taher Shams and together they bring applied dedication for quality healthcare in the region with sustainable environment-sensitive solutions.

In addition to pursuing better standards in healthcare, Zanubia has also actively initiated various corporate-government partnership ventures such as the first Emirates Cancer Society and the environmentally sustainable model of EFFORT (Earth Friends for Optimum Results Tomorrow), to name a few.
