

**Healthy
Heart Week**
8th-13th Sep., 2007

**Warm up
your heart!**

Everyday we refresh ourselves with beverages to stimulate our senses and similarly we at Zulekha Hospital are resolved to revive the warmth of your cardiac wellbeing. Zulekha Hospital has world class diagnostic facilities that can detect early cardiac complications sometimes even when you're seemingly fit. **Healthy Heart Week at Zulekha Hospital** (Dubai & Sharjah) from **8th to 13th Sep., 2007** is our dedication that reassures the wellbeing of the one thing that works 365 days to keep you sprightly: your heart.

Facilities: *Non-invasive investigation facilities including:* • Resting 12-Lead ECG • Computerized Stress ECG (Tread Mill Test) • Stress Echocardiography • Two-dimensional Echocardiography plus a Colour Doppler imaging facility • 24-hour Ambulatory ECG recording facility (Holter Monitoring). *Catheterization Lab equipped for performing invasive cardiac procedures:* • Coronary Angiography & Intervention • Carotid Angiography & Intervention • Peripheral Angiography & Intervention
