Supported by Apollo Group of Hospitals

Welcome

We are glad to announce that First Indo-European Course on Revascularization is being organized on 4-6 Jan, 2008 in New Delhi, India. This course will include the clinical and interventional aspects of various forms of heart disease.

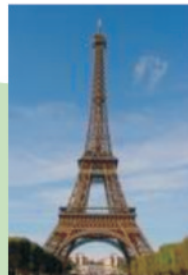

Eminent guest speakers from European and Indian Cardiology community will unravel different aspects of the Theme of the Conference "revascularization". As the first cardiology meeting and happening in just after **30th year of Angioplasty** we plan to develop this as one of the most educative teaching course (Skin to Skin) for young Interventional Cardiologists of Asia. It is estimated that about 700 experts, cardiologists, vascular medicine specialists, industrial partners and other health care professionals with a special interest in the field of interventional cardiology will attend the meeting. We also expect to have live transmission sites from different part of India, Europe and Asia. This course shall not only be learning experience for the young interventional cardiologists but will also be platform for exchange of knowledge from the key opinion leaders of the world.

We also have pleasure to confirm that various European embassies in India along with Delegation of European Commission in India and Government of Delhi are collaborators of this meeting.

Alain Cribier

Vivek Gupta

Registration form

1st Indo-European Course on Revascularization (IECR) Jan 4-6, 2008, New Delhi, India

Registration form

Family Name _____ First Name _____

Mr _____ Dr _____ Prof _____ Mrs _____

Hospital/ Institute/ Company _____

Department _____

Address _____

City _____ Pin Code _____ Country _____

Phone _____ Fax _____ e mail _____
